

NEW ZEALAND'S BUG OF THE YEAR

2024

Vote Here
bugoftheyear.ento.org.nz
starting 1 JAN 2024

**SELECT YOUR TOP
THREE NOMINEES
OF BUG OF THE
YEAR 2024
AOTEAROA**

Aotearoa is home to over 20,000 species of insects and spiders – and there are still more that need to be discovered! The Entomological Society of New Zealand wants to make sure YOU have the tools to discover the insects and spiders that are living all around you! We have 20 nominees for **NZ Bug of the Year.**

LILY DUVAL

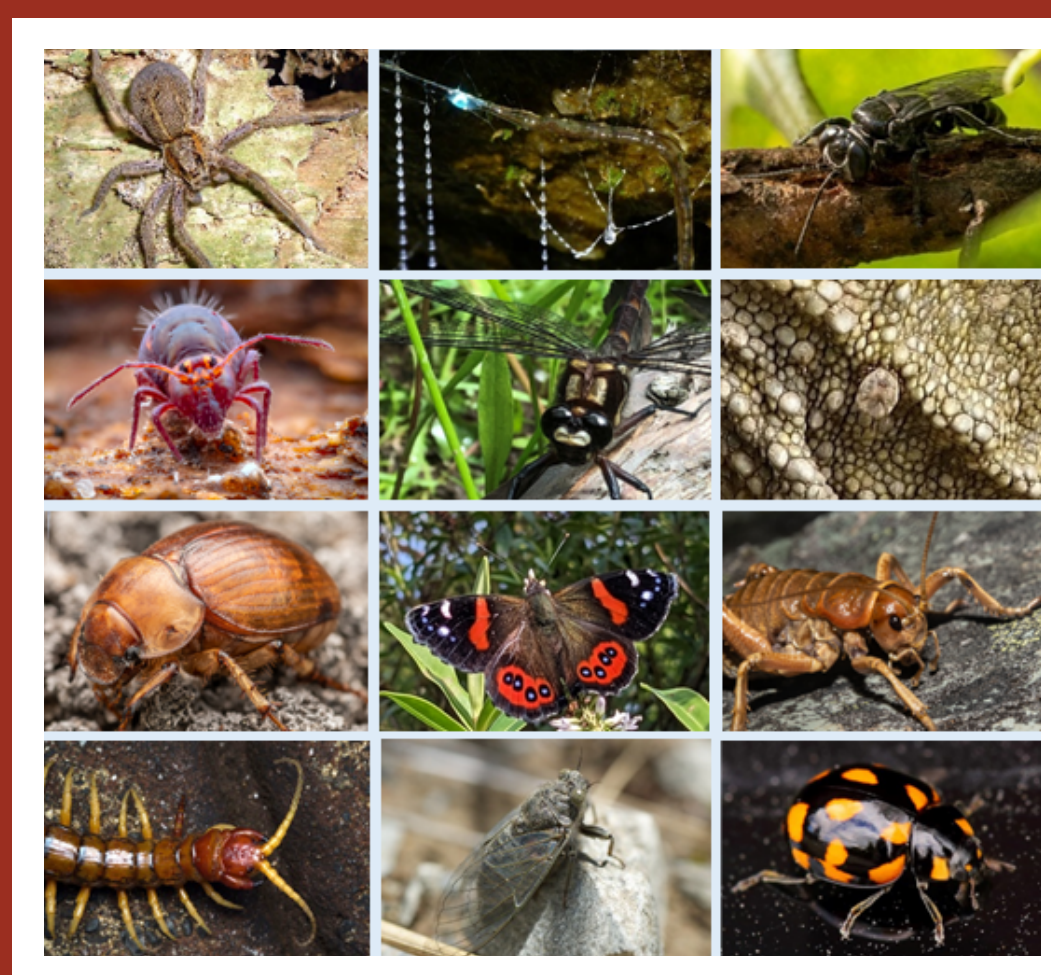

Of course there will be a new **Bugs of Aotearoa** poster by Lily Duval with the candidates for 2024 Bug of the Year. Available at www.lilyduval.com.

**TAKE SOME TIME
TO RESEARCH THE
NOMINEES!**

More information on each of the nominees is available by clicking on the image on the homepage. Take your time before you make your decision – you only get one chance to vote. There are some neat invertebrates that deserve a closer inspection!

**HOW THE WINNER
IS DECIDED?**

The bug with the most votes will be declared 2024 NZ Bug of the Year on 14 February 2024!

You can view all of these observations on our NZ Bug of the Year 2024 iNaturalist Project Page and even nominate new candidates for 2025!

SPONSORSHIP

NZ Bug of the Year is sponsored by the Entomological Society of New Zealand.

COMMITTEE

Jenny Jandt
Lily Duval
Julia Kasper
Morgane Merien
Phil Sirvid
Tara Murray
Connal McLean
