# BUG OF THE YEAR 2024 AOTEAROA

Vote Here  
[bugoftheyear.ento.org.nz](https://bugoftheyear.ento.org.nz)  
starting 1 JAN 2024

**Aotearoa is home to over 20,000 species of insects and spiders – and there are still more that need to be discovered! The Entomological Society of New Zealand wants to make sure YOU have the tools to discover the insects and spiders that are living all around you!**

**We have 24 nominees vying for NZ Bug of the Year.**

## TAKE SOME TIME TO RESEARCH THE NOMINEES!

More information on each of the nominees is available by clicking on the image on homepage. Take your time before you make your decision – you only get one chance to vote. There are some neat invertebrates that deserve a closer inspection!

## HOW THE WINNER IS DECIDED?

The bug with the most votes will be declared 2024 NZ Bug of the Year on  
14 February 2024!

You can view all of these observations on our NZ Bug of the Year 2024 iNaturalist Project Page and even nominate new candidates for 2025!
